SUMMARY

A full-stack developer wishing to deepen personal understanding and find success through collaboration. Passionate about learning and excellence. Endeavors to promote cohesiveness and teamwork. Able to subdivide big tasks into smaller manageable actions and to develop models to tackle troubleshooting.

PROJECTS

PairMe

Lambda School, Jan. 2019 – Feb. 2019

PairMe is a web app and Slack bot designed to connect students with teachers, teaching assistants, and other students able to help.

- Utilized JavaScript, React, Express, PostgreSQL, Slack API.
- Set up Redux, created and styled front-end components, took initiative to boost morale despite unresponsive teammates, which ensured 3-day deadline was met.
- Developed with a team of five.

Lodgel

Lambda School, Jan. 2019 – Feb. 2019

Lodgel is a short-term rental property app that allows the user to manage turnover assistants, track checklists, and receive payments from guests straight into the user's own Stripe account.

- Created with TypeScript, React (*Hooks*), Express, PostgreSQL, Firebase, Stripe.
- Responsible for designing sketches in Adobe XD, creating and styling FrontEnd components, setting up form validation, and establishing several routes and resources in Express.
- Collaborated with four other developers.

EXPERIENCE

Teacher Assistant – Computer Science

Lambda School, 2018 – 2019

- Led a team of 8 – 12 students that emulates a real work environment using the agile methodology.
- Exceeded expectations by performing detailed code reviews, writing several comments on 9–18 pull requests per week detailing style, structure, and approach.
- Nurtured a positive and supportive environment through cohesiveness, engagement, and impactful discussion.

SKILLS

JavaScript ✓

TypeScript ✓

React ✓
